

AN  **Ingersoll-Rand** TOOL COMPANY

Roller Cabinets, Chests and Tool Boxes

SIX DRAWER REMOVABLE TOP CHEST No. 9936

This spacious chest offers drawer arrangement and tool storage capacity preferred by professional mechanics. Its rugged good looks are combined with the security of three full length lock bars which secure all drawers when cover is closed. Chest features smooth top construction, full piano hinge, heavy duty end handles with positive stop and full size removable tote tray. Three one-third width drawers and two full width drawers are 1 7/8" deep. One full width drawer is 3 7/8" deep. All have chrome plated one piece drawer pulls. Chest is finished in Rocket Red baked enamel with contrasting dark gray drawers and tote tray.

No.	Width	Depth	Height	Wt., Lbs.
9936	26"	12"	14 5/8"	54.0

THREE DRAWER ROLLER CABINET No. 9957

Combines three spacious 4" deep drawers with generous storage compartment for those large space-taking tools. Maximum security is provided by a tamper-proof lock bar mechanism that secures all drawers in a closed position when actuated by a keyed tumbler lock. Drawers and bottom storage compartment are locked separately providing maximum tool protection. When working out of one compartment the other remains securely locked. Four inch diameter casters roll easily over rough floors even when cabinet is fully loaded. Two ball bearing swivel casters allow easy positioning. Toe-actuated brakes lock casters securely until you are ready to move or reposition cabinet. Finished in durable Rocket Red baked enamel with contrasting dark gray drawers.

No.	Width	Depth	Height	Wt., Lbs.
9957	27"	18"	29"	108.0

THREE DRAWER REMOVABLE TOP CHEST No. 9939

A basic top chest for the starting mechanic or for the mechanic who requires additional storage for long heavy duty tools and boxed sets. Has the same superior engineering and construction features as other Proto top chests including smooth top construction, full length piano hinge, full size removable tote tray, tumbler lock and heavy duty side handles with positive 90° stops. Tamper-proof lock bar secures all drawers when cover is closed. Features three full width drawers; one 1 7/8" deep and two 3 7/8" deep. Rocket Red baked enamel with contrasting dark gray drawers and tote tray.

No.	Width	Depth	Height	Wt., Lbs.
9939	26"	12"	14 5/8"	49.0

TWO DRAWER ADDITIONAL STORAGE UNIT No. 9945

Designed for the mechanic who requires additional tool storage in a handsomely matched unit. Can be used as a base for a top chest, with or without roller cabinet or as a separate storage unit. Tool security is provided by a positive tumbler lock that actuates a tamper-proof lock bar mechanism to secure drawers in closed position. Full width drawers are 3 7/8" deep and feature beautifully plated one piece drawer pulls. Finished in Rocket Red baked enamel with contrasting dark gray drawers.

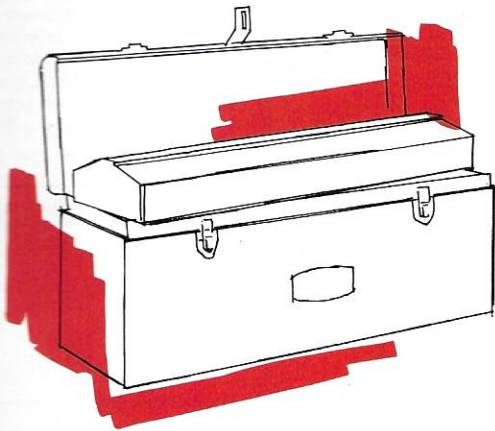

No.	Width	Depth	Height	Wt., Lbs.
9945	26"	12"	11"	37.0

THREE DRAWER ROLLER CABINET No. 9957

Three spacious 4" deep drawers and generous bottom storage compartment easily handle bulky space-taking tools and equipment. Drawers and lower storage area are locked separately providing maximum tool protection by allowing you to work out of one compartment while the other remains securely locked. Both sections have keyed-alike locks. Big four inch casters roll easily over uneven floors. Two ball bearing swivel casters allow easy positioning. Toe-actuated brakes lock casters securely until you are ready to move or reposition cabinet. Durable Rocket Red baked enamel with contrasting dark gray drawers. Unit is pictured above with storage compartment secured.

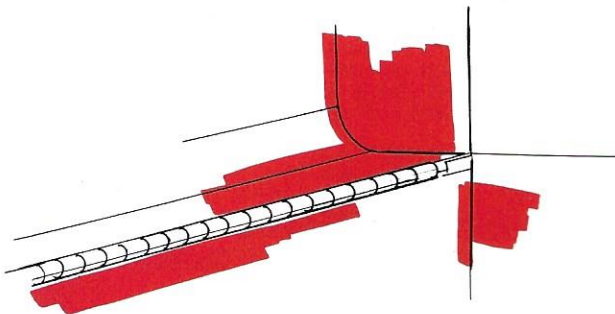

No.	Width	Depth	Height	Wt., Lbs.
9957	27"	18"	29"	108.0

Quality is engineered into every PROTO tool box...

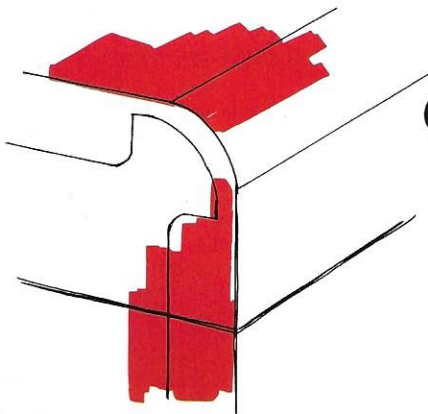

1 The same practical engineering built into Proto roller cabinets and top chests is built into every Proto utility box. Quality is engineered into each box with precision die formed parts insuring a rugged storage unit capable of providing maximum security for your valuable tools for many years to come.

2 A removable tote tray is included with most Proto utility boxes providing extra portability and functional use. All tote trays feature rolled steel handles for added comfort and strength.

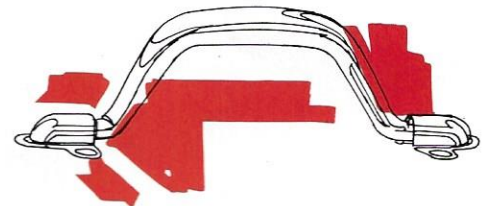

4 A continuous piano-type hinge is standard on all Proto utility boxes to keep the lid true and provide years of smooth, trouble-free operation. Hinge has staked knuckles to prevent removal.

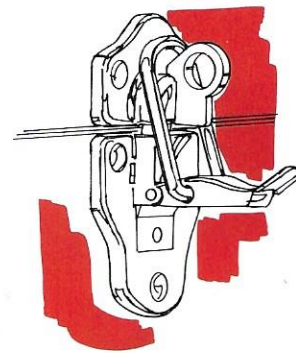

5 Proto utility boxes are fitted with heavy duty beautifully plated hardware. Center locking boxes use special combination hasp, staple and drawbolt designed to help prevent tool spillage. Locking eye accepts standard padlock.

6 Check the engineering and construction features found in every Proto box. One example is Proto's smooth top construction which eliminates unsightly end caps and sharp edges. This unique design promotes safe, easy wipe down, provides maximum protection against the weather and further enhances the clean lines and rugged good looks synonymous with Proto tool boxes.

3 Rugged steel handles provide safety and utility when lifting or carrying. Handles are formed from heavy gauge steel and are specially designed to fit the hand comfortably. They offer good looks with maximum safety and easily exceed government specifications.

NOTE:

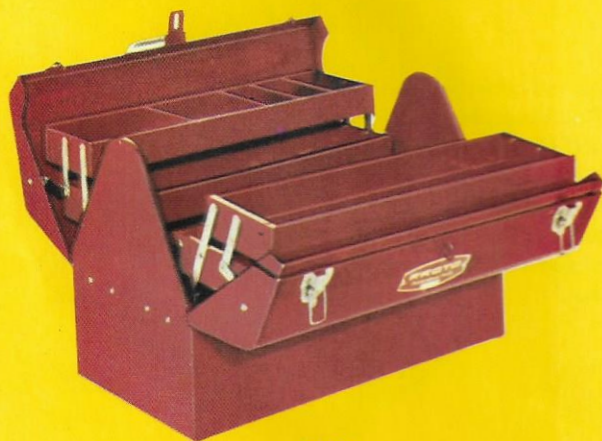

Measurements of Proto utility and set boxes are as follows: length is left to right; width is front to back; height is top to bottom with dimensions given in that order. Weight includes shipping carton.

Superior engineering and construction proves PROTO tool box leadership...

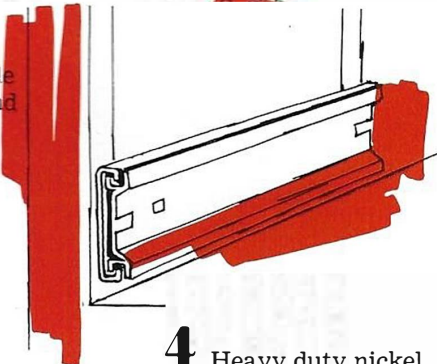

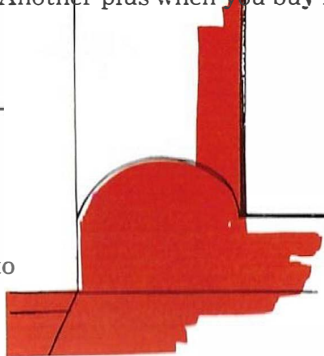

1 Proto tool boxes are engineered for maximum strength and rigidity with added reinforcement at critical stress points. The 1 1/4" wide wrap-around corner posts on Proto roller cabinets are a good example of the quality built into every Proto tool box.

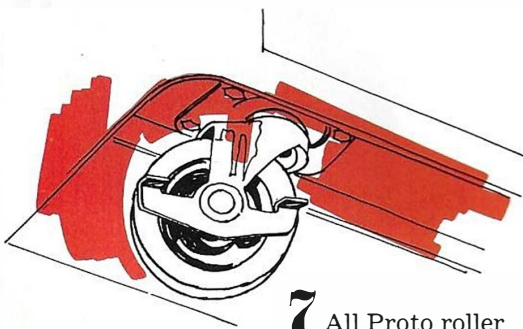

2 Smooth top construction engineered into Proto chests keeps covers square. Clean, smooth lines with no unsightly end caps promote safe, easy wipe down and further enhance Proto's rugged good looks.

3 All Proto chests and cabinets have double wall construction to provide the strength and rigidity required when loaded heavily with tools. Another plus when you buy Proto.

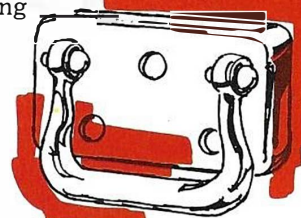

4 Heavy duty nickel plated side handles are standard on all Proto top chests. Handles have a built-in stop at 90° to prevent mashed knuckles when lifting a tool-laden chest.

5 Flange weld construction is engineered into critical corner stress points on all Proto top chests. This superior construction increases the weld area providing the strength and rigidity required to keep the unit square and true when loaded with tools.

6 Proto cabinets and chests provide maximum protection for your tool investment through the use of tamper-proof lock bars and tumbler lock. Every compartment has both drawers and locks allowing you to lock compartment while the rest remains securely locked.

7 All Proto roller cabinets come with heavy duty 4" diameter casters for easy mobility over uneven shop floors. Two casters are equipped with ball bearing swivels and toe-actuated brakes to permit easy maneuvering and positive wheel-locked positioning.

NOTE:

Measurements of Proto units with drawers are as follows: width is left to right; depth is front to back; height is top to bottom with dimensions given in that order. All measurements are without hardware and casters. Weight includes shipping carton.

8 Gleaming die cast drawer pulls add a touch of elegance to Proto's smooth, clean lines. Chest and cabinet drawers are as functional as they are beautiful and are supported on compound suspension slides for free drawer movement. Drawers are easily removed for cleaning.

EIGHT DRAWER REMOVABLE TOP CHEST No. 9937

This chest has everything professional mechanics require for proper tool storage. It's rugged, roomy and good looking. The eight no-spill drawers remove easily for cleaning. Three full-length lock bars automatically lock all drawers when cover is closed. Features smooth top construction, full length piano hinge, tumbler-type lock, heavy duty end handles and removable tote tray. Six one-third width drawers and one full width drawer are 1 7/8" deep. One full width drawer is 3 7/8" deep. Chest is finished in Rocket Red baked enamel with contrasting dark gray drawers and tote tray.

No.	Width	Depth	Height	Wt., Lbs.
9937	26"	12"	14 5/8"	60.0

EIGHT DRAWER ROLLER CABINET No. 9958

The eight full width drawers in this massive double-wall cabinet provide maximum storage for both large and small tools. Five drawers are 2" deep; three drawers are 4" deep. Drawer actuated lock bar and tumbler lock provide instant access and maximum security for your tool investment. Big four inch casters, two with ball bearing swivels and toe-actuated locks, provide easy mobility and positioning. Rugged construction and good looks accept and match perfectly any of Proto's heavy duty top chests. Durable Rocket Red baked enamel with contrasting dark gray drawers.

No.	Width	Depth	Height	Wt., Lbs.
9958	27"	18"	29"	146.0

EIGHT DRAWER REMOVABLE TOP CHEST No. 9938

This eight drawer top chest provides ample storage and maximum protection for valuable tools. Three full length tamper-proof lock bars automatically secure all drawers when cover is closed. Four one-third width drawers and three full width drawers are 1 7/8" deep. Center drawer is 3 7/8" deep and designed to hold portable electric drill or other bulky items. Chest features smooth top construction, full length piano hinge, tumbler lock and full size removable tote tray. Heavy duty nickel plated handles on each end have positive stops to prevent mashed knuckles when lifting. Rocket Red baked enamel with contrasting dark gray drawers and tray.

No.	Width	Depth	Height	Wt., Lbs.
9938	26"	12"	14 5/8"	58.0

FIVE DRAWER ROLLER CABINET No. 9956

A functional unit combining the best in both drawer and bulk storage. Five full width drawers, four 2" deep and one 4" deep provide ample storage for basic hand tools. Large bottom compartment holds impact wrenches and other bulky tools and equipment. Drawers and bottom storage compartment are locked separately with same key, allowing easy access to one while the other remains locked for maximum on-the-job security. Large four inch casters provide easy mobility, even when cabinet is fully loaded. Two ball bearing swivel casters have toe-actuated locks to position unit where you want it. Cabinet matches perfectly with your choice of any Proto heavy duty top chest. Finished in Rocket Red baked enamel with contrasting dark gray drawers.
